Dear Steve,

Laura has suggested the following revised condition wording (which omits the requirement to provide monitoring data). Can you agree to this?

Development shall not commence, other than works of site survey and investigation, until full details of the proposed surface water drainage scheme have been submitted to and approved in writing by the Local Planning Authority. No building shall be occupied until the complete surface water drainage system serving the property has been implemented in accordance with the agreed details and the details so agreed shall be maintained in good working order in perpetuity.

If you are able to agree this, then we may be able to issue this week.

Also can we agree an extension of time until the 18th April please.

Kind Regards

Subject: The Fallows, Barnham

Simon

Can we have a formal decision on this case now as it is becoming over protractive

Kind regards

Steve Jupp
