Hi Simon

Further to review of the attached dwg D2776-FAB-00-XX-DR-L-0101-D102 I can advise that I would be happy to approve this approach to play for this development in this setting.

The child specific trim trail equipment proposed will allow for a varied playset and combined with the natural element of boulders and trees stumps will form pocket LAP areas combining LAP and LEAP requirements. The equipment chosen is suitable for location by providing a naturalistic and physical form of experience.

I would **recommend approval** of the above drawing in relation to play requirements for this development.

Kind regards

Sue

Good afternoon Sue,

Just a follow up on the email below, did you get a chance to review the drawing attached?

Thanks in anticipation,

Mark

Hi Sue,

Thanks for taking the time to talk through this project with me last week, it was very useful. Off the back of our conversation we have prepared the attached drawing which illustrates the trim trail and dispersed natural play we are proposing. I hope that this meets your expectations, please let us have your comments if you have any.

Kind regards,
mark
