

Recommendation Report for Approval of Reserved Matters Following Outline Approval

REF NO: BN/51/16/RES

LOCATION: Land at former Pollards Nursery
Lake Lane
Barnham

PROPOSAL: Approval of reserved matters following outline consent BN/16/12 & BN/21/14 for appearance, landscaping & scale for erection of 107 dwellings, car parking including garages, internal access roads, footpaths, parking & circulation areas, hard & soft landscaping, formal & informal play areas & public open spaces, attenuation basins, sewage treatment plant & other associated infrastructure & engineering

SITE AND SURROUNDINGS

DESCRIPTION OF APPLICATION

This further application seeks approval of Reserved Matters - appearance, scale, layout and landscaping - for the erection of 107 dwellings and associated works in relation to the outline planning permission BN/16/12 as amended by BN/21/14 at the former Pollards Nursery, Lake Lane, Barnham.

The site already has the benefit of approved Reserved Matters (BN/21/15/RES) and construction has commenced on site, but the applicant has undertaken a review of the design and layout of the scheme, which has resulted in changes to the layout from that approved.

The changes to the approved layout, which are the subject of this reserved matters application (BN/51/16/RES) comprise:

- Adjustment of plots and house types on the southern spine road;
- Revisions to plots and house types in the central development parcel, and the reconfiguration of the north eastern corner of the site;
- Increased open space and relocation of the proposed allotments to the south eastern boundary of the site;
- Adjustments to plots and house types on the southern boundary;
- Provision of pedestrian / cycle link to adjoining development and adjustments to open space in the south western corner; and

- Revised layout on the western boundary, on the former location of the proposed allotments.
- Removal of the foul water treatment plant from the centre of the site and replacement with public open space;
- Revision to the proposed play equipment on the public open space.

The number of dwellings remains the same as the approved Reserved Matters (BN/21/15/RES) at 107 dwellings with the access to the site remaining from the north east. The layout retains the same principles of a linking spine road running through the site with dwellings fronting onto the road; with the same levels of open space both informal and formal provision as well as wildlife corridors and drainage features.

SITE AREA	Approximately 6.2 ha
RESIDENTIAL DEVELOPMENT DENSITY (NET)	17.25 dwellings per ha
TOPOGRAPHY	Predominantly flat
TREES	There are trees along the western boundary that remain. Many have been felled in accordance with previously approved plans. The Council's tree officer has agreed the location of tree protection zones/fencing which remains in situ.
BOUNDARY TREATMENT	Existing vegetation on northern boundary adjoining residential properties to the north. Mature tree-lined boundary to the western boundary, together with a tract of land for housing granted as part of the outline planning permission. Eastern boundary is adjoined by glass houses; and the railway line is located to the south of the application site.
SITE CHARACTERISTICS	The site is located to the east of the settlement of Barnham, south of Lake Lane. To the east, the site is bound by glasshouses associated with Pollards Nursery. To the south, the site is bounded by the railway line and to the west, agricultural land recently allowed at appeal for 75 dwellings. The site is made up of existing glasshouses that were built in the 1950s/60s. The site is

principally made up of hardstanding and structures. The existing buildings have a single storey ridge height. At present, the site operates as a horticultural business. The residential development is well under way and houses have already been constructed and others are in the process of being constructed.

On the western boundary lies a significant tree belt.

The site access lies approximately 950 metres to the east of the village centre and comprises approximately 2 hectares of existing hardstanding area.

CHARACTER OF LOCALITY

The site is located beyond the edge of the built up area boundary. There are some residential properties to the north of the application site but the area is generally semi-rural in nature and typical of areas close to the edge of settlements.

RELEVANT SITE HISTORY

BN/5/08/	Construction of a new packing facility (Resubmission following BN/13/07)	ApproveConditionally 23-05-2008
BN/17/10/	Development of a a glasshouse, water storage reservoir and boiler room.	ApproveConditionally 14-10-2010
BN/16/12/	Outline application with some matters reserved for a development of up to 107 no. residential units (this application is a Departure from the Development Plan)	Refused 22-11-2012 <i>Appealed</i> Appeal: Allowed+Conditions 17 10 2013
BN/24/15/PL	Demolition of existing office & erection of 1 No. new replacement office.	ApproveConditionally 15-09-2015
BN/21/15/RES	Approval of reserved matters following outline consent BN/16/12/ for the construction of 107 No. residential dwellings with associated internal access roads, footpaths, boundary treatments, attenuation ponds, pumping station, landscape & open space (including allotments).	ApproveConditionally 02-12-2015
BN/59/16/PL	Erection of a temporary sales cabin &	Withdrawn

associated parking area

23-01-2017

BN/15/16/RES	Approval of reserved matters following outline consent BN/16/12/ for the reconfiguration of site layout to include the resitting of 4 No. residential buildings.	Withdrawn 17-02-2017
--------------	--	-------------------------

Outline permission (BN/16/12) was allowed on Appeal, and amended by the Section 73 application BN/21/14 which removed two small sections of land from the development site and removed it from the red edge boundary.

The main issue at the Appeal was the effect on the character and appearance of the rural area having regard to national and development plan policies in respect of development in the countryside and the delivery of new housing.

The Inspector concluded that the development did not comply with policies relating to development outside of defined development boundaries, but that in the absence of a 5 year land supply these policies were not considered to be up to date and the presumption in favour of sustainable development applied. That having regard to paragraph 14 of the NPPF, there would be a benefit in terms of a contribution to housing supply, some local surface water drainage improvement and the potential for further investment in the horticultural business. The encroachment into the countryside was not found to be harmful to the character and appearance of the rural area. The adverse impact of approving the scheme did not outweigh the benefits.

The Unilateral Undertaking accompanying the application secured 30% affordable housing, open space and a landscape management plan, construction management plan and highway safety audits. Also, financial contributions in respect of highway works (bus stop improvements), fire and rescue, libraries and NHS.

REPRESENTATIONS

Representations received:

Barnham Parish Council raised no objection.

4 letters of representation have been received from residents of Arun Place objecting to the reserved matters application on the following grounds:

- The original plans showed an allotment and children's play area and footpaths along the western boundary of the site. The planning application has been amended and the applicant is proposing four large detached houses close to the western boundary of the site.
- The four proposed large detached houses will be constructed on the western side of the application site close to the adjoining new houses (Arun Place) which have been built on the parcel of land immediately west of the application site; which will lead to overlooking and loss of light and privacy.
- The 10 to 15 metre landscaping belt along the western boundary of the site has already been cleared, which is contrary to the original planning permission.
- The tree line bordering the site is an important area for bat foraging and it should be retained.
- The applicant is proposing to remove at least half of the reptile habitat (i.e. trees) and will only retain a small area adjacent to the border of the site, in order to construct four large detached houses.
- The original location of the proposed allotments on the western boundary of the application site would have complemented the wildlife area well.

Comments on Representations received:

Comments noted.

The location of the proposed four detached houses on plots 68-71 on the application site comply with the stand-off distances and would not overlook any new houses on the Arun Place Development or lead to loss of privacy or light.

The applicant has submitted detailed landscaping plans, including a landscape scheme, which includes the retention of the western boundary and the enhancement of this area with additional planting and complementary new features including a LEAP and pocket of green spaces. In respect of existing trees, these are retained and protected where possible. Where possible existing trees and habitats have been protected and the measures proposed for their retention, protection and enhancement; and additional landscaping is being proposed to mitigate any potential loss of habitat.

CONSULTATIONS

Highways England
Network Rail
WSCC Strategic Planning
NHS Coastal West Sussex CCG
Environmental Health
Parks and Landscapes
Arboriculturist
Southern Water Planning
Economic Regeneration
Planning and Housing Strategy
Sussex Police-Community Safety
Engineering Services Manager
Engineers (Drainage)
Network Rail
Environment Agency
WSCC Strategic Planning

Consultations responses received:

ENVIRONMENT AGENCY:

Private package plant is not acceptable in sewered area - mains connection should be pursued. Application for private package plant has been withdrawn. Cess pits are being used as a temporary short term solution for the houses already constructed but this is not sustainable in the long term. The developer should fully investigate connection to mains foul sewerage either via Southern Water or an OFWAT appointed sewerage undertaker.

SOUTHERN WATER:

The Environment Agency should be consulted directly regarding the use of a private wastewater treatment works, which disposes of effluent to sub-soil irrigation. On site foul drainage should be offered for adoption by sewerage undertaker, but the proposed plan would not be adoptable by Southern Water.

The Council's technical staff and the relevant authority for land drainage consent should comment on the proposals to discharge surface water to the local watercourse.

SuDS Scheme - Drainage details submitted to the Local Planning Authority should:

- Specify the responsibilities of each party for the implementation of the SuDS scheme
- Specify a timetable for implementation

· Provide a management and maintenance plan for the lifetime of the development to include the arrangements for adoption by any public authority or statutory undertaker and any other arrangements to secure the operation of the scheme throughout its lifetime.

If consent is granted, the following condition should be imposed:

"Construction of the development shall not commence until details of the proposed means of foul and surface water sewerage disposal have been submitted to and approved in writing by the Local Planning Authority in consultation with Southern Water."

ADC DRAINAGE ENGINEER:

Principles of drainage are acceptable and the details have been agreed with the applicant. Finalised layout and revised drainage information is provided in the submission to discharge the conditions imposed on the outline planning permission.

HIGHWAYS ENGLAND:

No objection.

WSCC HIGHWAYS:

No objection.

The applicant has revised access arrangements to introduce a 2 metre wide footway adjacent to the access road with a dropped kerb/tactile paving uncontrolled crossing providing connection.

The applicant will require consent to undertake works on the Highway though a Minor Works License which can be obtained by contacting the Highway Licensing Team.

NETWORK RAIL:

Having considered the details of the proposal, Network Rail would like to advise the applicant of the following:

The developer/applicant must ensure that their proposal, both during construction and after completion of works on site, does not:

- encroach onto Network Rail land
- affect the safety, operation or integrity of the company's railway and its infrastructure
- undermine its support zone
- damage the company's infrastructure
- place additional load on cuttings
- adversely affect any railway land or structure
- over-sail or encroach upon the air-space of any Network Rail land
- cause to obstruct or interfere with any works or proposed works or Network Rail development both now and in the future

As the site is adjacent to Network Rail's operational railway infrastructure, Network Rail strongly recommends the developer contacts AssetProtectionWessex@networkrail.co.uk prior to any works commencing on site. More information can also be obtained from our website at www.networkrail.co.uk/aspx/1538.aspx

SUSSEX POLICE:

No comments.

ADC ECONOMIC REGENERATION:

No further comments but would ask that the developer signs the Arun Developer and Partner Charter and works with the Economic Development Team to offer opportunities to local companies to supply and work on the development.

ADC HOUSING STRATEGY AND ENABLING MANAGER:

No objection raised. This scheme in terms of the provision of affordable housing is supported.

The outcome of BN/21/15/RES and the Unilateral Undertaking accompanying the appeal (APP/C3810/A/13/2193942) should be followed in relation to the affordable housing. The applicant has agreed to provide 32 affordable homes (30%) - 12 x 1 bed; 18 x 2 beds; 1 x 3 beds; and 1 x 4 beds. The proposed mix is acceptable. Tenure of 80:20 Rental:Intermediate homes is acceptable. Suitably integrated onto the development. Appropriate affordable housing delivery approach. The Council would not support the inclusion of Starter Homes as an affordable housing product as there are no published regulations setting out how these would operate as a new affordable tenure type.

ENVIRONMENTAL HEALTH:

Additional information was requested:

- Specific location of the 2 metre high acoustic fence to the south of the site
- Clarification relating to internal and external noise levels.
- Applicant to provide raw data for the long-term noise level monitoring.

ADC GREENSPACE:

The proposed landscape scheme provides a good species selection of mixed native evergreen and deciduous trees, herbaceous, shrubs and hedging plants which if given the correct protection and aftercare would create a suitable scheme, providing instant impact, screening and softening to the development. The inclusion of SuDS within the public open space (POS) whilst providing some biodiversity benefit may limit the useable POS area in general and potentially impact on adjacent trees. The amended plans of the LEAP, including the play equipment, are acceptable for location and they have been detailed to include the information requested. The location of the play and the amended location of the allotments are acceptable and look good. Due to the proximity of the LEAP to a water body then the developer should have the Play area(s) RoSPA assessed. The applicant should indicate connection from gates to pathways by means of footpath - only one footpath is indicated but it is not vital.

ADC ARBORICULTURE:

There are no arboricultural issues arising from this reserved matters application. The trees on the site are shelter belts of screening Leylandii and Alders situated around the site boundaries and they appear to have been fenced-off from the development and there are therefore no tree issues to resolve. The belts of Leylandii have suffered badly from wind-throw and it is suggested they will need a management programme of remedial tree works to render them safe before the site is completed and handed over to residents for on-going control.

WSSC STRATEGIC PLANNING:

No objection raised.

WSSC - S106 Response

A contribution of £809,673 is required for the proposed 107 dwellings, to go to Education, Libraries and Fire & Rescue.

Deed of Planning Obligations

- County Council reasonable legal fees to be reimbursed
- Financial contribution on commencement of development
- Arrangements for review as costs change over time
- Review of the contribution to school building costs should be by DfF adopted school building costs applicable at the date of payment of the contribution or index linked to the DfE cost

multiplier and relevant increase in the RICS BCIS All-In TPI - subject to annual review.

- Review of the contribution to additional library floorspace should be by RICS BCIS All-In TPI - subject to annual review.

- Review of the contribution to fire service infrastructure should be by RICS BCIS All-In TPI - subject to annual review.

Contributions generated shall be spent on a new school in the Pagham area; phase 1 of a new secondary school or the expansion of St Philip Howard Catholic high School should the new school not progress; and a new sixth form or the expansion of St Philip Howard Catholic High School Sixth Form should the new school not progress; and an expansion of the facilities at Littlehampton Library.

Comments on Consultation responses:

Comments noted.

The issues raised by the Environmental Health Officer is already covered by condition 20 which was imposed on the outline planning permission, which requires the development to be set back from the railway by 15 metres and the submission of a noise report setting out mitigation measures. The report was submitted by the applicant pursuant to condition 20 in January 2017 and again in relation to the current reserved matters application in the recent complete condition discharge. Following discussions with the case officer, the noise consultants contacted EHO to agree the revisions to the report. This was the version submitted in January 2017. This matter is covered by a discharge of condition application which is before the LPA.

The Unilateral Undertaking has already been agreed.

POLICY H7

PLANNING POLICY GUIDANCE

POLICY COMMENTARY

The Development Plan consists of the Arun District Local Plan 2003, West Sussex County Council's Waste and Minerals Plans and Made Neighbourhood Development Plans.

A new local plan is in preparation may be a material consideration when determining Planning Applications. At this stage the Arun District Local Plan 2011-2031 (Publication Version) October 2014 and supporting documents were submitted for independent examination on 30 January 2015. The Examination into the submitted plan was commenced but is currently suspended whilst Arun District Council addresses matters raised by the Inspector.

A number of Main Modifications to the Arun District Local Plan 2011-2031 (Publication Version) October 2014 were approved by the Council on 22nd March 2017 and consultation on these has taking place. The Main Modifications should be read alongside the Arun District Local Plan 2011-2031 (Publication Version) October 2014 and where there are changes the Main Modification may also be material consideration to take into account. The examination has re-commenced in September following publication of modifications to the Plan.

Where applicable, Neighbourhood Development Plan's (more commonly known as a neighbourhood plan or NDP), once made by Arun District Council, will form part of the statutory local development plan for the relevant designated neighbourhood area and policies within them will be considered in determining planning applications. Made NDP policies will be considered alongside other development plan documents including Arun District Council's Local Plan. Whilst an NDP is under preparation it will afford little weight in the determination of planning applications. Its status will however gain more weight as a material consideration the closer it is towards it being made. Arun District Council will make reference to an NDP when it has, by the close of planning application consultation, been publicised for pre-submission consultation (Regulation 14).

Made Plans in Arun District Council's Local Planning Authority Area are: Aldingbourne; Angmering; Arundel; Barnham & Eastergate; Bersted; Bognor Regis; Clymping; East Preston; Felpham; Ferring; Kingston; Littlehampton; Rustington; Walberton; Yapton. The written Ministerial

Statement of 13 December 2016 confirms that relevant policies for the supply of housing in Neighbourhood Plans should not be deemed to be out of date where all of the following circumstances arise;

- The NDP has been part of the development plan for 2 years or less or the ministerial statement is less than 2 years old
- The NDP allocates sites for housing
- The Council can demonstrate a three-year supply of deliverable housing sites

Arun District Council will make reference to an NDP when it has, by the close of planning application consultation, been publicised for pre-submission consultation (Regulation 14).

DEVELOPMENT PLAN AND/OR LEGISLATIVE BACKGROUND

Section 38(6) of the Planning and Compulsory Purchase Act 2004 states:-

"If regard is to be had to the development plan for the purpose of any determination to be made under the planning Acts the determination must be made in accordance with the plan unless material considerations indicate otherwise."

The proposal is considered to comply with relevant Development Plan policies in that it would have no materially adverse effect on the visual amenities of the locality or the residential amenities of the adjoining properties, nor would it have an adverse impact upon the established character of the surrounding area.

OTHER MATERIAL CONSIDERATIONS

It is considered that there are no other material considerations to warrant a decision otherwise than in accordance with the Development Plan and/or legislative background.

CONCLUSIONS

PRINCIPLE

The principle of the development of this site has been established in the decision allowing the Appeal into the outline planning application (BN/16/12) for 107 houses, with an existing approval for reserved matters (BN/21/15). There can therefore be no objection in terms of the location of the site outside of the built-up area boundary (the BUAB). The key issues to be considered are ones of detail and relate to the layout, design, appearance and landscaping on the site.

ASSESSMENT

It should be noted that the applicant has amended the scheme during the process of this reserved matters application (BN/51/16/RES) and it is the revised proposal that is being considered. The amendments to the submitted scheme include the removal of the foul water treatment plant and its replacement with public open space; together with a revision to the LEAP and the submission of additional technical details, including information on individual items of play equipment.

USE AND AMOUNT OF DEVELOPMENT

The site has outline planning permission for 107 houses (BN/16/12), with approval for reserved matters (BN/21/15). Development has commenced on the site for the delivery of 107 dwellings (30% of the dwellings are affordable). The proposed housing provision is in accordance with the

Councils requirements and the Planning Obligation. The Councils Housing Strategy & Enabling Manager has raised no objection and considers the proposed quantum and location of the affordable housing to be suitable, in accordance with policy DEV17 of the Arun District Local Plan.

Development has commenced on the front of the site and a number of units are under construction. The applicant's intention is to build out the first phase under the approved reserved matters (BN/21/15) and then transition into the current reserve matters (BN/51/16/RES) once approved. There are consistencies on both the layouts (BN/21/15 and BN/51/16/RES) in respect of the front of the site.

The current reserved matters application (BN/51/16/RES) as amended proposes small layout changes to the configuration of development on the site, but retains the 107 houses (including 30% affordable provision) already approved.

SCALE AND BUILDING HEIGHTS

There are limited surrounding dwellings to this site and these are to the north and west. Dwelling types in the vicinity are a mixture of two-storey and some single storey. There is also other non-residential horticultural development nearby to the east. The site itself for the most part enjoys good separation from surrounding development and good screening from nearby residential development. The predominance of two storey dwellings on this site is in keeping with the character of the surrounding area and ensures that the development reflects the surrounding built form.

SITE LAYOUT AND CHARACTER

The layout changes proposed in the current reserved matters application (BN/51/16/RES) comprise adjustments to plots and house types along the southern spine road, within the centre of the development site and along the southern boundary and a revised layout on the western boundary, following the relocation of the proposed allotments to the south western boundary of the site. It is proposed to reposition the pedestrian / cycle link to the adjoining development and adjust the open space in the south western corner of the site. The proposed amendments, amounting to small layout changes to the configuration of the approved development (BN/21/15) are considered to be acceptable and enhance the overall residential development on the site, in accordance with policy GEN7 of the Arun District Local Plan and policy D DM1 of the emerging Local Plan.

The layout has been designed in a manner which provides for open space, SuDS, a LEAP and allotments. Provision is principally on the west and northern boundaries and therefore provides some degree of buffer with existing development. Open space is also provided within the site and is readily accessible from the new dwellings. There is also good surveillance of open space from dwellings due to the layout.

The main access route is characterised by detached dwellings and there is a degree of circulation within the site due to internal road linkages. The main access route will have a generally spacious appearance, with gaps between dwellings and landscape planting. The layout is not formal and has a more 'organic' appearance and towards the western site boundary there will be a large and more open frontage to land which accommodates SUDS and the LEAP.

The proposed substation within an area of open space and the allotments are to be located adjacent to the glasshouses (nursery). There will be in excess of 15 metres between the

substation and the habitable rooms of dwellings.

The scheme is generally laid out with detached dwellings on main road frontages. It includes Homezone / Courtyard areas and these appear to be principally for the affordable housing. Such areas will be distinct and have a more urban character due to the tighter grain and predominance of hard surfaces. These properties are semi-detached or terraced and have smaller frontages, to be planted with hardy evergreen plants for year round interest. Tree planting will also be carried out. Surfacing in the parking bays will be block paving with contrasting tarmac with soldier course block edging. The development seeks to reflect the green character of Barnham, with hedgerow and tree planting to create a strong green character.

It is considered that the approved and proposed amended layout reflects the guidance in the NPPF, in respect of the need to create a high standard of environment for residents, which is also reflected in the requirements of the Adopted and Emerging Arun District Local Plans and that the current application for the approval of reserved matters (BN/51/16/RES) accords with policy GEN7 of the Arun District Local Plan and policy D DM1 in the emerging Local Plan.

DESIGN AND FORM OF BUILDINGS

The proposed building designs and use of materials are considered to sympathetically respond to its location. The development will have its own distinctive character and quality, whilst at the same time reflecting the local vernacular.

The applicant has proposed a series of dwelling types of mixed design and materials. Main street frontages and prominent locations have been carefully and satisfactorily addressed. Materials include brick and render for walls, tile hanging and timber boarding and also bargeboards to gable fronted dwellings.

The buildings will have traditional elements of roof forms, with punctuating design details which reflect the local vernacular. A consistent pallet of materials would be utilised and this would result in a consistent character overall.

The proposed street scenes demonstrate a variety of housing types and finishes, which creates interest and presents an organic feel to the proposed dwellings.

In conclusion, it is considered that the amended layout demonstrates a sensitive and acceptable approach to design.

RAILWAY LINE

The application, including dwelling design demonstrates that the potential impact of railway line to the south of the site has been satisfactorily addressed. Network Rail has raised no objection to this reserved matters application.

EMERGING DWELLING SPACE STANDARDS

The Council's emerging internal space standards are under review. House types do however comply with National Space Standards.

In terms of the emerging external space standards private gardens all meet the minimum required depth of 10 metres so provide sufficient and suitable private outdoor amenity space. Larger dwellings generally have larger back gardens throughout the site. Garden areas are in excess of

the required minimum areas and are therefore satisfactory.

PARKING AND HIGHWAY ISSUES

Parking provision for the proposed dwellings is in accordance with Council approved Parking Standards for the size of dwellings proposed. Visitor parking is proposed throughout the development and in addition, many of the dwellings have sufficient space to accommodate visitor parking on plot. The proposed development also includes the provision of 12 car parking spaces to serve the allotments.

LANDSCAPING

The applicant has submitted detailed landscaping plans, including a landscape scheme. The landscaping includes the retention of the western boundary and the enhancement of this area with additional planting and complementary new features including a LEAP and pocket of green spaces. In respect of existing trees, these are retained and protected where possible and the proposed new planting within the development is to be considerable and will provide for a very satisfactory residential environment. Where possible existing trees and habitats have been protected and the measures proposed for their retention, protection and enhancement; and additional landscaping is being proposed to mitigate any potential loss of habitat. The Council's Arboricultural Officer considers there are no arboricultural issues arising from this application for reserved matters.

In response to ADC Greenspace comments, the play space (the LEAP) has been reviewed and updated and incorporated into the revised plans submitted in August 2017, which reflected the up to date masterplan and this also addressed the consistency matters in providing one detailed plan. The revised play space (LEAP) is considered to be acceptable. The play equipment has been detailed and now provides a good selection with varied play experience. In addition, the submitted LMP management report covers the protection measures and comprehensive maintenance regime through each planting type recommendation and objectives and the annual maintenance operations. In terms of details regarding maintenance responsibilities, the LMP sets out in paragraph 1.5. 'Until private areas are conveyed or the Management Companies take-over, Redrow Homes will be responsible for maintaining all the above areas and will be responsible for replacement of defective stock in accordance with the planning conditions'. The future management of the existing boundary features are covered by the Arboricultural Report for tree protection; and the Landscape Management Plan sets out management for the existing woodland. The Landscape Management Plan provides the management regime required for the longevity of the landscape features. The long term management responsibility for areas of open space will be via a formal Management Company who will manage all areas which are not within private ownership or formally adopted by other parties (i.e. roads).

The provision of allotments, the LEAP and internal open space within the development at the levels proposed is acceptable and complies with policies in the Development Plan and the emerging Local Plan.

DRAINAGE

Drainage proposals are acceptable and Southern Water and ADC drainage have raised no objection. The integration of drainage measures into the open space and the associated opportunities this will provide in terms of ecological enhancement are to be welcomed. The principles of the drainage scheme for the current reserved matters application have been agreed with the developer; and the application has been amended with the removal of the foul treatment

plant. Revised drainage information for the whole site has been provided by the developer in the submission to discharge the conditions imposed on the outline planning permission. Consequently, there is no requirement to impose drainage conditions on this application for reserved matters.

CONCLUSION

The reserved matters application (BN/51/16/RES) as amended - seeking approval for appearance, scale, layout and landscaping - which proposes small layout changes to the configuration of development on the site, but retains the quantum of housing development, is acceptable.

It is considered that the proposed changes to the overall development of the site would result in a good quality scheme which seeks as far as possible to integrate itself with the settlement of Barnham and reflects the local vernacular. It is therefore recommended that this application for reserved matters is approved and the following conditions are imposed.

There is a Unilateral Undertaking in place for the following -

- 30% Affordable Housing
- Open Space
- Landscape Management Plan
- Construction Management Plan
- Highway Safety Audits
- Financial Contributions in respect of:
 - Highway Works (bus stop improvements)
 - Fire and Rescue

HUMAN RIGHTS ACT

Human Rights Act:

The Council in making a decision should be aware of and take into account any implications that may arise from the Human Rights Act 1998. Under the Act, it is unlawful for a public authority such as Arun District Council to act in a manner, which is incompatible with the European Convention on Human Rights.

Consideration has been specifically given to Article 8 (right to respect private and family life) and Article 1 of the First Protocol (protection of property). It is not considered that the recommendation for approval of the grant of permission in this case interferes unreasonably with any local residents' right to respect for their private and family life and home, except insofar as it is necessary to protect the rights and freedoms of others (in this case, the rights of the applicant). The Council is also permitted to control the use of property in accordance with the general interest and the recommendation for approval is considered to be a proportionate response to the submitted application based on the considerations set out in this report.

DUTY UNDER THE EQUALITIES ACT 2010

Duty under the Equalities Act 2010

In assessing this proposal the following impacts have been identified upon those people with the following protected characteristics (age, disability, gender reassignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex or sexual orientation).

The proposal would have a neutral impact on the protected characteristics.

RECOMMENDATION

APPROVE CONDITIONALLY

- 1 The development hereby approved shall be carried out in accordance with the following approved drawings and submitted material:

Layout Plans

Drawing Number P16_0421_03 Rev. H - Site Layout - Dated 02.08.17

Drawing Number P16_0421_04 Rev. A - House Type Pack - Dated April 2017

Drawing Number P16_0421_05-1 Rev. D - Boundary Treatments - Dated 08.08.17

Drawing Number P16_0421_06 - Boundary Treatments Details - Dated 20.09.16

Drawing Number P16_0421_14-1 Rev. G - Materials Plan - Dated 08.08.17

Landscape Plans

Drawing Number 2600-LA-13 Rev. P9 - General Arrangement Plan 1 of 2 - Dated 09.11.16 submitted 16.08.17

Drawing Number 2600-LA-14 Rev. P9 - General Arrangement Plan 2 of 2 - Dated 09.11.16 submitted 16.08.17

Drawing Number 2600-PP-12 Rev. P8 - Planting Plan 1 of 2 - Dated 09.11.16 submitted 16.08.17

Drawing Number 2600-PP-13 Rev. P8 - Planting Plan 2 of 2 - Dated 09.11.16 submitted 16.08.17

Drawing Number 2600-SP-01 Rev. P2 - Soft Landscape and Hard Surfaces Specification

Drawing Number 2600-SP-02 Rev. P2 - Soft Landscape and Hard Surfaces Specification

Drawing Number 1707.16693 - Proposed Equipment - Dated 31.07.17 submitted 16.08.17

Engineering Plans

Drawing Number C85102-D-128 Rev. B - Site Access - submitted 10.05.17

Drawing Number C85102-D-130 - Existing Access Vehicle Tracking - submitted 10.05.17

Drawing Number C85102-D-131 - Existing Access Vehicle Tracking - submitted 10.05.17

Drawing Number C85102-SK-001 - Access Road Visibility Splays - submitted 10.05.17

Reason: For the avoidance of doubt and in the interests of amenity and the environment in accordance with policy GEN7 of the Arun District Local Plan.

- 2 No dwelling shall be occupied until the parking spaces, turning facilities and garages for that dwelling shown on the approved plans have been provided and constructed for the dwelling to which they relate. The areas of land so provided shall not thereafter be used for any purpose other than the parking, turning and garaging of vehicles.

Reason: To ensure that adequate and satisfactory provision is made for the parking of

vehicles in accordance with policy GEN7 of the Arun District Local Plan

- 3 Notwithstanding the provisions of Class A, A.1, (g) within Part 1 of Schedule 2 of the Town and Country Planning (General Permitted Development) (England) Order, 2015 (or any Order revoking or re-enacting this Order) no rear extensions to the dwelling houses shall be erected within the curtilage of the dwellings hereby permitted unless planning permission is first granted by the Local Planning Authority on an application in that behalf.

Reason: To safeguard the privacy and amenity of adjoining occupiers, maintain adequate amenity space and safeguard the cohesive appearance of the development in accordance with policy GEN7 of the Arun District Local Plan.

- 4 Any construction related pruning works are to be completed under supervision of the Local Authority tree officer. Pruning works must meet the BS 3998: 2010 Standards.

Reason: In the interests of the trees continued health and vitality and to accord with current industry guidelines and sound arboricultural practice and in the interests of amenity and the environment in accordance with policies GEN7 and GEN28 of the Arun District Local Plan.

- 5 Within 3 months of the date of this decision, a Bin Collection Strategy Plan shall be submitted to and be approved by the Local Planning Authority. The dwelling(s) to which the Bin Collection Points relate shall not be occupied until the bin collection points for those dwellings have been provided in accordance with the details so approved.

Reason: To ensure that adequate and satisfactory provision is made for the storage and collection of bins in accordance with policy GEN7 of the Arun District Local Plan.

- 6 INFORMATIVE: This decision has been granted in conjunction with a Unilateral Undertaking relating to the following -

30% Affordable Housing
Open Space
Landscape Management Plan
Construction Management Plan
Highway Safety Audits
Financial Contributions in respect of:
- Highway Works (bus stop improvements)
- Fire and Rescue
- Libraries
- National Health Service

- 7 INFORMATIVE: As the site is adjacent to Network Rail's operational railway infrastructure, Network Rail strongly recommends the developer contacts AssetProtectionWessex@networkrail.co.uk prior to any works commencing on site. More information can also be obtained from our website at www.networkrail.co.uk/aspx/1538.aspx

Network Rail can be contacted as follows:

Network Rail

1 Eversholt Street
London
NW1 2DN

- 8 INFORMATIVE: The Applicant is advised to consult with the Waste Collection Authority prior to undertaking the swept path analysis exercise in relation to bin collection points to ensure the design vehicle used for the tracking reflects that used locally.
- 9 INFORMATIVE: The applicant should note that under Part 1 of the Wildlife and Countryside Act 1981, with only a few exceptions, it is an offence for any person to intentionally take, damage or destroy the nest of any wild birds while the nest is in use or being built. Birds nest between March and September and therefore removal of dense bushes, ivy or trees or parts of trees etc. during this period could lead to an offence under the act.
- 10 INFORMATIVE: This notice does not give authority to destroy or damage a bat roost or disturb a bat. Bat species are protected under Section 39 of the 1994 Conservation (Natural Habitats etc) Regulations (as amended), the 1981 Wildlife and Countryside Act (as amended) and the 2000 Countryside and Rights of Way Act. It is illegal to damage or destroy any bat roost, whether occupied or not, or disturb or harm a bat. If you are aware that bats roost in a tree(s) for which work is planned, you should take further advice from Natural England (via the Bat Conservation Trust on 0845 1300228) or an ecological consultant before you start. If bats are discovered during the work, you must stop immediately and contact Natural England before continuing.
- 11 INFORMATIVE: Statement pursuant to Article 35 of the Town and Country Planning (Development Management Procedure)(England) Order 2015 - The Local Planning Authority has acted positively and proactively in determining this application by identifying matters of concern within the application (as originally submitted) and negotiating, with the Applicant, acceptable amendments to the proposal to address those concerns. As a result, the Local Planning Authority has been able to grant planning permission for an acceptable proposal, in accordance with the presumption in favour of sustainable development, as set out within the National Planning Policy Framework.
- 12 INFORMATIVE: The following information was provided in accordance with outline planning permission but it will be subject to a separate Discharge of Conditions (DOC) application.
- Condition 10: details of the existing trees and hedges to be retained or removed are shown on the submitted Tree Survey Report, dated October 2015.
 - Condition 12: details of the areas of public open space including the play areas are shown on the submitted landscape plans along with details contained in the 'Example Design LEAP' plan and 3D visualisation.
 - Condition 14: Landscape Management Plans prepared by Allen Pyke dated October 2016 as submitted.
 - Condition 15: details of the 10% energy supply reduction and a timetable for implementation is contained within the report prepared by Southern Energy Consultants Ltd as submitted.
- 13 INFORMATIVE: Due to the proximity of the LEAP to a water body then the developer should have the Play area(s) RoSPA assessed. The applicant should indicate connection from gates to pathways by means of footpath - only one footpath is indicated.
