Please find my comments to the above planning application:

1. Effect on Character and Appearance of Local Area

The proposal places houses effectively in the back gardens of existing houses on Downview Road that are much too close to, and visible from, Downview Road thus adversely affecting the street scene and character of the area. This was the primary reason for the rejection of application EG/108/17/OUT, 10 Downview Road.

Construction Management Plan

If the proposal should be approved, the construction management plan must provide written and actual protection for the integrity and cleanliness of the existing roadways, gardens and other green areas as well as for the health and safety of existing residents and visitors of all ages and abilities at all hours of the day and night. Details should be submitted and approved in writing by the Local Planning Authority.

Yours sincerely,
