Subject: BN/57/19/RES

Mr Carver,

After Mr Carver and I reviewed all the information you provided over the past two days, both via the planning portal and by email to myself, the following information still needs to be amended:

1. Application form, part 5 (supporting information), please list the drawing numbers of all plans, statements etc that have been submitted with this application.
2. On the application form, part 4 (development description, please provide a description of the approved development as shown on the decision letter), this needs to be word for word the description for WA/22/15/OUT.
3. On the application form, part 4 (development description, please provide a description of the reserved matters for which you are seeking consent...), please complete this section with the precise wording that was agreed for this application (BN/57/19/RES).
4. The Location plan that was sent on 30th January 2020, via the planning portal, differs from the current location plan which is on the file. Please resend me the location plan that is required for this application.
5. The block plan that was sent on 30th January 2020 differs from the current block plan we hold on file. Please resend me the block plan that is required for this application.
6. A street scene is still required. It is noted that a 'street scene' was included in the 'Landscape and Visual Appraisal Statement, however, a street scene needs to show the proposed buildings showing the houses to the east of the site.
7. The landscape plans need to show the attenuation pond in its proposed position.

If you have any questions, please let me know.

Thank you,
Daun
