Hi Ben,

I have been checking all my emails if I missed your drainage engineer's update.
However, I couldn't find anything.

If you can send me these updates addressing our drainage engineer requirements it would be grate since she has to look at it and provide updated comments. Accordingly we can arrange the extension of time.

I will call you in the morning (today it was probably too late).

Kind regards

Maria

OK no problem

Many thanks

Ben,

I am sorry for a delay.

There are some difficulties with the system recently and our drainage Officer was immensely busy.

I will call you on Tuesday since I need to ask you also for an EoT and without drainage officer and access to system I do not know for which day yet.

Speak to you soon

Maria

Thanks for the email

I note the drainage engineers comments online, our drainage engineer is updating the report to address points 1-3 raised simply for clarity and we will issue this to you in the next day or so, we are agreeable to the conditions he has suggested.

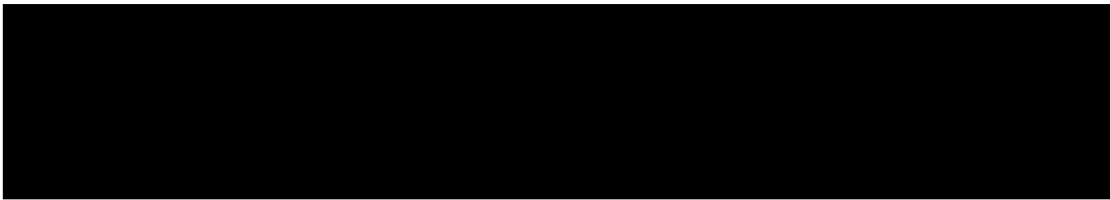

With regards to points 4 and 5 raised by them, they note a pipe at the northern end of the ditch, I have for clarity added this to the block plan (attached) and shown a 3m buffer around this and noted no structures of fencing within this area. We have accordingly moved the bin store.

I hope this addresses the points raised and look forward to your further feedback

Ben,

Thank you for your email.

You are probably aware that we work from home and everything takes longer than usually.

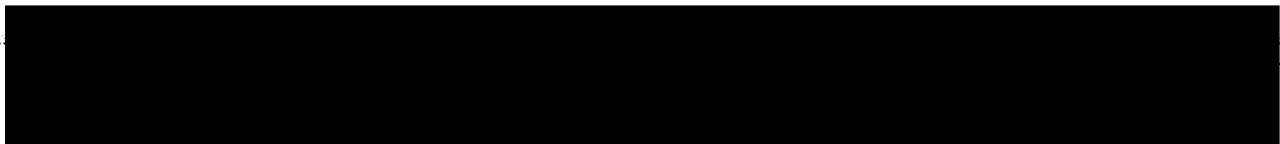

I have already spent certain time with this application since it has a rich history and I have to say this proposal is well prepared, using all means of PD rights.

What keeps me out are some other much older applications which couldn't go ahead earlier for many reasons.

Your application is on the top of my list and I am working on my report.
As soon as I finish it I will contact you.

Kind regards

Maria

entre,

Maria

Could you provide an update on this application please and when we are likely to receive a decision. I appreciate the current crisis is causing difficulties with maintaining a normal service but we are keen to keep our client updated as the application is now well past the target date

Many thanks

Kind Regards
