Habitat Regulations Assessment – Appropriate Assessment

No Objection Subject to Securing Mitigation - Appropriate Assessment concludes No Adverse Effect on Integrity and Natural England concurs with this conclusion

Natural England notes that your authority, as competent authority, has undertaken an Appropriate Assessment of the proposal in accordance with regulation 63 of the Conservation of Species and Habitats Regulations 2017 (as amended). Natural England is a statutory consultee on the Appropriate Assessment stage of the Habitats Regulations Assessment process.

Your Appropriate Assessment concludes that your authority is able to ascertain that the proposal will not result in adverse effects on the integrity of any of the sites in question. Having considered the assessment, and the measures proposed to mitigate for all identified adverse effects that could potentially occur as a result of the proposal, Natural England advises that we concur with the assessment conclusions. This is providing that all mitigation measures are appropriately secured in any planning permission given.
