Subject: Re: BN/64/26/PL

Good morning Amber,

Following on from Susan's email, there have been comments repeated in the drainage consultee's second response in respect of updated surface water flood risk mapping and modelling - a response was provided in respect of this within our earlier response to the drainage consultee's original consultation response. We believe that this point has been addressed and a suitable explanation has been provided.

The additional points have also now been addressed as detailed within our latest written response, so we hope that you are now in a position to approve the drainage proposals.

Please feel free to give me a call to discuss if any areas of concern remain - I am happy to speak with you and/or the drainage consultee in order to resolve any outstanding matters at the earliest opportunity. If you then require a further written response to summarise any discussions, we would be happy to provide this to ensure any and all communication is recorded.

Many thanks for your time.

Kind regards,

Stuart Burnett
Associate Director
