Planning Reference: Pollards Nursery Site BN66/16/DOC, BN/52/16/RES (51/16)

Dear Sir/Madam,

I would like to express my concerns regarding the newly revised plans from Redrow in Barnham (plans referenced above).

I live in 22 Nightingale Lane, Barnham (part of the Arun Place Development) and am concerned that the revised plan now features buildings to be erected within the originally protected wildlife habitat. This goes against the conservation of the reptiles and bats which use this area to commute and forage.

The original plan included allotments (instead of two storey buildings) which would have complimented our wildlife habitat mentioned above. Could this revised plan be carefully reconsidered as there is a 10 metre minimum light free zone imposed upon the Arun Place Development. This was to be achieved by a 10-15 metre shrub/greenery line between the Redrow site boundary and their proposed building. Could you please examine/explain why this appears to have been cleared from the revised plans?

Regards,

Nick Sanger
