Subject: Objection to canal mew development

Dear Maria

I am writing to formally object to the proposals to build 3 new dwellings in the green area adjacent to canal mews.

The access to this area is via Nightingale Lane - which is a private road. As a resident of the Arun place development I do not consent to the additional traffic (and noise nuisance) associated with both construction and residence in these proposed dwellings.

The road and pavements are already requiring repair and this would exacerbate the issues further.

The only way around this in my eyes would be for Arun District Council to formally agree to adopt the road, pavements and green areas within the Arun Place development.

I would appreciate if you would please acknowledge the receipt of my objection.

Yours sincerely

Katie Manning
Owner of 19 Nightingale Lane
