Good afternoon

I live at No. 1 Nightingale Lane, Barnham PO22 0DL. My house is the last one on the sewer run and twice to my knowledge the main sewer has had to be flushed through as I believe it is currently insufficient for the quantity of properties it serves. So due to this aspect I strongly object to any more properties being added to the sewer. I believe the two in question are three bedded properties which means that at least 3 people if not 4 would be accommodated in each thereby increasing the foul waste considerably,. Therefore take my objection as very strong against the two bungalows and their associated drainage etc.
