Neil

As far as I'm concerned it doesn't really satisfy the position - but I'm not sure how much further we can go with this. The points we would like to add are:

- The current (and relatively recent) owners have discontinued the quality assurance programme and we do not allow accommodation providers to advertise with us unless they are quality assured. Obviously this has restricted their marketing opportunities
- There is evidence on other sites that there is a strong demand for this type of tourist accommodation
- The previous owners ran a successful and thriving business

Let me know if you want me to respond more formally

Regards

Clare

Neil

Please find attached addendum to the D&AS as justification for the loss of tourism use on the site.

If this will satisfy the position can you let me know and I will formally submit the document through your planning portal electronically.

Kind regards

Ivon
