

Site Layout Plan - Site set-up during construction

NOTES

- 1. On site parking for 3 vans or 1 truck; all other vehicles to be parked on public highway (not Church Lane)
- 2. Materials/equipment deliveries to be delivered to site via Church Lane (loading/unloading only)
- 3. All materials to be stored on site within ownership boundary.
- 4. Heras fencing to North, South, East and West boundaries.
- 5. No construction traffic on site, therefore no requirement for on-site wheel washing facilities.
- 6. Dust on site will be minimised where possible, dust extraction to be used on power tools, when used.
- 7. Industrial hoovers to be used on site to maintain general site cleanliness.
- 8. No external lighting in place; no outside lights to be installed. Security and safety lighting only. Internal lighting to be used once house is built during finishing of works.
- 9. All power tools to be electric, including mixer, plus battery tools. Normal noise levels.
- 10. No fuels or chemicals to be kept on site.
- 11. No burning on site to be carried out.
- 12. All waste to skips at site entrance. Skips to be regularly emptied.
- 13. Existing trees and hedging to be protected in accordance with approved tree protection plan.
- 14. Any vehicles being required to reverse out of the site should be assisted by a competent banks person.
