

Cherry Trees

Planting Schedule

Hedge Planting

Common Name	Species Name	Planting size (cms)	% Mix
Cherry Laurel	Prunus laurocerasus	60 - 80	100

One row of 450/600 trainer stock at 0.8-1m centres, 1200 tubex tree shelters, stakes and ties, 8ltrs SHL compost per plant.

Hedge Maintenance

Year 1

- Planting between November and March
- Tubex tree shelter and rabbit fencing for protection

Years 1-5, each year

- Inspect shelters, stakes and ties; loosen and remove as necessary
- Trim hedges annually during correct season to attain a formal shape
- Water hedgerows and shrubs if drought conditions occur
- Replace shrubs which are dead or failing to thrive in winter of each year.
