Iqraa,

Sorry for not adding the dims to external boundary's, please find a replacement drawing LP/01, I have not done a revision, so please disregard the last drawing.

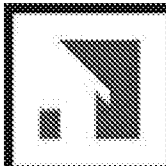

Also attached is a CIL, this project being so small is not liable in any way, shape or form, but understand you have to have the form completed for protocol and forgot to attach it to the application!

I also now attach a Lidsey Foul Water – Environmental Assessment Statement, you will see from the plans we are converting a bathroom into a bathroom/wet room and replacing a WC, Shower and Basin with a WC, Shower and Basin, so there will be no additional loadings. I have put this in a separate statement for you.

I hope you can now validate this application.

Kind regards

Robert Syred
