Dear Andrew
Apologies in the delayed response your additional information was only sent over to me late on Friday, in regards to the scale any scale is acceptable but 1:100 which is 1m = 1cm is easiest to draw or 1:50 which is 1m = 2cm. We would need a scaled drawn elevation of the gates, trellis and pergola, one of each is fine as there all the same height, as long as a dimension is on the plan stating the height of them then that will be fine.
Kind regards
Sian
