Hi Simon,

As a 'PS' – the street scene elevation shows (lower) buildings to either side, but we have also indicated the taller new-build behind to the south and the 1960s block north across the road is also important context.

The architects also wanted us to mention that the design of this building was originally to the specification of the council's Housing team who were minded to purchase the site and this informed the height and internal spaces.

Best wishes  
Gareth

Hi Simon,

Please find attached street scene elevation attached!

Best wishes  
Gareth
