Simon

Thank you for taking my call earlier to talk through the NMA application. As discussed, we would like to remove the references to materials from the application and deal with these separately under Condition 26. We understand that the remaining changes can then be dealt with as non-material amendments.

To summarise, the non-material amendments we are seeking to make are:

- Reduced height of parapet to CDIO.
- Bridge link to Stage 1 roof replaced with fixed vertical ladder.
- Site layout updated to remove eastern road link.
- Minor adjustments to car park layout (number of spaces remains unchanged).

The following matters will be considered as a part of Condition 26 (materials):

- Textured brickwork removed from north and west facing elevations.
- Brick specification changed from Anthracite Facings to Ibstock Bevern Dark Multi Stock.
- RAL colour for windows and curtain walling changed from RAL 7022 Umbra Grey to RAL 7016 Anthracite Grey.

The following amendment has already been deleted from the application:

- Flint changed to render on inward facing north elevation of Stage 1.

We look forward to receiving your decision early next week. Please get in touch if you need any further details.

Regards

Tony
