Sizes:

215x102.5x50 mm 215x102.5x65 mm 215x102.5x73 mm

Ketley natural Red Staffordshire Class A Facing bricks have a deserved reputation for excellence. They are solid or perforated and are a distinct rich red colour especially good for matching properties built during Victorian times.

Applications

Ketley Staffordshire Reds are frequently used for architectural purposes in commercial developments and for landscaping and structural use in urban renewal schemes and general improvement areas.

They are often used in conjunction with other less durable materials for cappings or copings and to add detail and interest.

Ketley Staffordshire Red Class A bricks are suitable for use in particularly exposed conditions such as the Cheltenham Flood Alleviation Scheme, seen in the photograph above right.

Samples: Illustrations in this publication are as accurate as the printing process will permit and will reflect lighting conditions at the time the photographs were taken. To appreciate fully the appearance of the bricks please request samples from our Sales office on **01384 78361** or **info@ketley-brick.co.uk**, these are freely available and will provide a better guide. All our products are made from naturally occurring materials and therefore a certain degree of colour variation is an inherent feature of the products.
