Subject: FW: Bognor Regis Bandstand - BR/120/19/PL and BR/121/19/L

Dan,

Please find attached updated drawings for Bognor Regis Bandstand. The proposals now include an access ramp following the octagonal shape of the bandstand. The ramp would be surfaced with black tarmac and would have a red brick edging to match the new plinth to the main bandstand. The handrail to the ramp would be painted metal, in the same colour as that proposed to the handrails to the main bandstand. Windbreaks have not been included but could be the subject of a future application.

Can you please substitute these drawings for those which were previously submitted.

Thank you,

Phil.

Dan,

The new ceiling would be painted cream, and this is as noted on the letter that I issued yesterday.

Kind regards,

Phil.

Thanks – that seems fine. Would the colour be cream or blue?

Dan,

Please find attached drawing 824-07 which includes the pattern / layout for the fixing of the proposed T&G boarded ceiling. This will be fixed to the underside of the existing horizontal metal framework members.

I can confirm that the proposed Perspex sheeting at high level will be fitted on the inside face of the decorative ironwork and is required to prevent rainwater penetration into the roof structure and onto the proposed ceiling. This Perspex sheeting will be clear and would barely be visible from ground level. It will be fixed in a manner to enable removal on a future occasion to ensure the work is entirely reversible. The size of each panel would cover each individual internal face of the existing ironwork.

Do you require any additional information in relation to these two items?

Thanks,

Phil.

Subject: RE: Bognor Regis Bandstand - BR/120/19/PL and BR/121/19/L

Phil and Caroline,

Thanks for the information and meeting yesterday

The condition previously suggested is below:-

No development shall take place unless and until full details (colours/designs/materials) of the installation of Perspex sheeting (including the size of panels) to the roof structure, the installation of the horizontal boarding below the roof structure, the new bricks and the proposed flooring tiles to be used have been submitted to and approved by the Local Planning Authority. Thereafter, the proposed renovation/repair works shall be implemented in accordance with the approved details and retained.

We don't yet have the bits in red but we can decide on how we deal with this after briefing panel tomorrow.

Dan

Caroline,

Please find attached the letter that I hand delivered to the Civic Centre earlier today, together with pdfs of various other information relating to external materials and finishes. The hard copy that I delivered also included a sample of the brick to be used for the plinth, samples of the tiles to be used for the flooring and a colour chart for the paint colours.

Thanks,

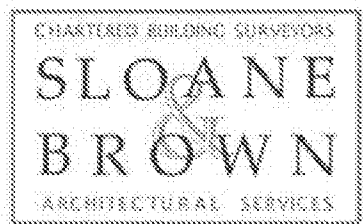

Phil.
