18th December 2019

Dear Sir / Madam,

The Bandstand, The Promenade, Bognor Regis - reinstatement of missing pieces of ornamental metalwork; redecoration of entire structure; removal of yellow brick plinth and step, and reinstatement with red brick; relocation of entrance gate from south elevation to west elevation; infilling of open east and west sides with new railing to match existing; removal of existing lighting and provision of new; fitting of horizontal ceiling; removal of concrete floor finish; laying of new non-slip tiles in geometric pattern; fitting of Perspex sheeting at high level to prevent rainwater penetration.

Please find attached various items of additional information relating to specific details of the external colours and finishes which are proposed. In detail these are as follows:

- **Paint colours.** We can confirm that the metal railings will be painted with Akzo Nobel Dulux Heritage DH White. All other areas of metalwork (ie handrails, posts, rainwater goods, ornamentation) will be painted with Akzo Nobel Dulux Heritage Deep Ultramarine. These colours are as the enclosed Heritage colour chart (underlined in red) and also as shown on drawing 824/12. We would be pleased to email a pdf of this drawing to you. The timber ceiling will be painted with Akzo Nobel Dulux Heritage DH White.
- **Brick plinth.** The existing yellow brick plinth will be removed and replaced with Ketley Brick Staffordshire Red 'Class A' Solid facing brick as the attached sample and accompanying information sheet.
- **Floor Tiling.** Non-slip floor tiles will be laid in a geometric pattern to complement the octagonal shape of the bandstand, and an extract of this pattern is shown on the attached plan prepared by London Mosaic. This pattern will radiate out from an octagonal centre tile and will have a 320mm wide border to the perimeter. We have also enclosed some small samples of the different colours to be used. Specifically, these are:
Border – Black and Cognac;
Main pattern – Dark Blue and White.

We trust this information will be able to be agreed as part of the application and accordingly will not need to be the subject of conditions of any approval.

Please do not hesitate to contact me should you have any questions or if you require any additional information.

Yours faithfully,

Phil Brown

Director
