Dear Nick,

Thank you for this. We will upload this revised plan. However, this will not remove the concerns about access to the space unless you can also (a) demonstrate that you have consent to move the telegraph pole (I assume you would obtain this from BT?); and (b) demonstrate that the section of wall to be removed is in your clients ownership.

Please also advise what you mean by "your further comments around traffic safety as discussed 10 days ago" so that I can answer your question. Do you mean the comments of Highways forwarded to you on 10th June (22 days ago) or some other conversation? I don't recall any subsequent conversation.

Kind Regards

Hi Simon

Please find attached revised site plan which we trust addresses concerns as to the viability of the second parking space in relation to the above listed application. I have tried to contact Debbie Farrelly in Highways for some clarification of her consultation advice as I note there does not appear to be any concerns in relation to our Lambeth methodology traffic survey.

With reference to your further comments around "traffic safety" as discussed 10 days ago it would be helpful if you could also clarify your concerns and the parameters under which this has been deduced so that I can communicate these to the client in a coherent way. If these are issues that can be further addressed then we will no doubt endeavour to do so to allow for a successful approved application,

Many thanks for you time and consideration,

Best wishes
Nick
