Dear Sir

Planning Application BR/130/13 - Balcony at 5 Seafield Terrace

With regard to the above Planning Application for a first floor balcony to the south elevation of Number 5 Seafield Terrace, I should like to explain my reason for opposing this structure.

Although the dimensions of the proposed balcony are acceptable to me, the construction of galvanised steel frame, aluminium sections and toughened glass infil panels are out of character with the balconies at the adjoining properties at numbers 2, 3, 4 and 6 Seafield Terrace, which have similar but not identical railings. I consider that the proposed construction would compromise the symmetry of the balcony railings at these properties and spoil the existing line of balconies at this section of the terrace.

Yours faithfully

[redacted]

Mrs Catherine Hunter
