Dear Cllr Oppler

I am contacting you in regard to the above planning application. It has just been brought to my attention by my elderly parents who live in Havelock Road.

We have several concerns regarding this application, particularly with regards to parking in the area which is completely saturated. My parents are elderly and disabled and often have cars from HMO's parked outside their dropped curb with white line. There is never anywhere to park in the area as it is and this makes it even more difficult for anyone who is unable to walk far.

There is also a great decline in properties available for families now. It is such a shame to see many family homes being turned into multi occupancy, especially as young families find new builds too expensive to purchase.

As there are already several HMO's in the area it really is a concern that more will make these situations much worse. Longford road is busy at the best of times and always difficult to drive through with cars sometimes parked on both sides of the road due to lack of parking.

Also doctors surgeries and schools are struggling in the area with a growing population and bringing more residents here would increase that.

There have also been incidences of people entering private gardens and taking fruit from trees in the area which is concerning and worries my parents a lot as they do not feel safe in their own property.

Thank you very much for taking the time to contact my parents on this matter for their views.

Kind regards

Peta Pallet on behalf of Kay and Norman Pallet
