

The floor plan illustrates a symmetrical two-story residential layout. On the left, a large Garage is connected to the main building. The central portion contains two identical units. Each unit features a large Lounge at the front, a Kitchen at the rear, and two adjacent WCs. A central staircase in each unit provides access to both floors, with 'up' and 'down' arrows indicating the direction of travel. The plan is dimensioned with a width of 9400 and a depth of 6090.

This floor plan shows a symmetrical four-bedroom house. The layout includes:

- Bedrooms:** Four bedrooms, two on each side of the central hallway.
- Bathrooms:** Two bathrooms, one on each side of the central hallway, each containing a bathtub, toilet, and sink.
- Study:** Two study areas, one on each side of the central hallway.
- Hallway:** A central hallway connecting the rooms, featuring two staircases with red arrows indicating the direction of travel (up and down).
- Entrance:** A central entrance area with a small landing and two doors leading into the study areas.
- Windows:** Large windows are present on the outer walls of the bedrooms and studies.

The floor plan shows a symmetrical layout with two bedrooms on either side of a central staircase. Each bedroom has a window and a door. The central staircase has two red arrows pointing towards the front door. The house is surrounded by a lawn and a driveway on the left.
