Supplementary Planning Guidance for
Advertisements.

DEVELOPMENT PLAN AND/OR LEGISLATIVE BACKGROUND

Regulation 3(1)(a)(b), 3(2)(a)(b) and 4(3) of the Town and Country Planning (Control of Advertisements) Regulations 2007 states:-

"3(1) A local planning authority shall exercise its powers under these Regulations in the interests of amenity and public safety, taking into account -

(a) The provision of the development plan, so far as they are material; and

(b) Any other relevant factors.

(2) Without prejudice to the generality of paragraph (1)(b) -

- (a) Factors relevant to amenity include the general characteristics of the locality, including the presence of any feature of historic, architectural, cultural or similar interest;
- (b) Factors relevant to public safety include -
 - (i) The safety of persons using any highway, railway, waterway, dock, harbour or aerodrome (civil or military);
 - (ii) Whether the display of the advertisement in question is likely to obscure or hinder the ready interpretation of any traffic sign, railway sign or aid to navigation by water or air;
 - (iii) Whether the display of the advertisement in question is likely to hinder the operation of any device used for the purpose of security or surveillance or for measuring the speed of any vehicle.

4(3) In determining an application for consent for the display of advertisements, the local planning authority may have regard to any material change in circumstances likely to occur within the period for which the consent is requested.

OTHER MATERIAL CONSIDERATIONS

It is considered that there are no other material considerations to warrant a decision otherwise than in accordance with the legislative background.

CONCLUSIONS

The proposed development is for a number of replacement signs and advertisements to replace existing signs on the south, east and north elevations of NatWest Bank on Bognor Regis High Street.

The proposed signs comprise a number of fascia signs and elevational signs including signs with illuminated lettering and red edging. The proposed signs reposition the existing signs more centrally on the elevations and increase the size of the lettering.

Other proposed amendments to the facade include new ATM surrounds and an illuminated red chevron (NatWest logo symbol) on the elevations.

Paragraph 67 of the Framework provides guidance that "Only those advertisements which will clearly have an appreciable impact on a building or on their surroundings should be subject to the local planning authority's detailed assessment. Advertisements should be subject to control only in the interests of amenity and public safety, taking account of cumulative impacts."

It is considered that given the presence of existing advertisements on the facade of the building and its location within an existing commercial area with a diverse array of advertisements on buildings that the proposed development would not have an appreciable impact on the host building or its surroundings. The proposed signs will not have an adverse impact on amenity or public safety.

It is therefore considered that the proposed signs should be approved subject to the conditions outlined below.

HUMAN RIGHTS ACT

The Council in making a decision should be aware of and take into account any implications that

may arise from the Human Rights Act 1998. Under the Act, it is unlawful for a public authority such as Arun District Council to act in a manner, which is incompatible with the European Convention on Human Rights.

Consideration has been specifically given to Article 8 and Article 1 of the First Protocol (protection of property). It is not considered that the recommendation for approval of the grant of permission in this case interferes unreasonably with any local residents' right to respect for their private and family life and home, except insofar as it is necessary to protect the rights and freedoms of others (in this case, the rights of the applicant). The Council is also permitted to control the use of property in accordance with the general interest and the recommendation for approval is considered to be a proportionate response to the submitted application based on the considerations set out in this report.

DUTY UNDER THE EQUALITIES ACT 2010

Duty under the Equalities Act 2010

In assessing this proposal a neutral impact was identified upon those people with the following protected characteristics: age, disability, gender reassignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex or sexual orientation.

As a neutral impact has been identified no mitigation is considered necessary.
