Hi Simon

Thank you, this is really appreciated.

The 'reduced Store Machinery' is a brick store that is quite tall and doesn't need to be that high to hold some floor fitted lift equipment. The plan is to reduce the height of the store to be able to have windows above it on the adjacent external wall. I hope that makes sense?

Kind regards

Dear Leeza,

Thank you for your call earlier. As promised, I write to advise that it is my intention to approve this conversion application. However, your application is in a queue and I have around 11 older applications ahead of yours. I would suggest that I will be in a position to start to write this up in about 3 weeks' time and I have made a note in my calendar.

One thing though, can you advise what the "Reduced Store Machinery" as indicated on the Ground Floor Plan is?

Kind Regards

Hi Simon

I can see on the application site that Highways now have no issues with the proposals.

Does this mean we will be getting a positive result for the application?

Any idea how soon that may be available? The applicants are keen to start work.

Kind regards
