Dear Zoe Toppin

Ref: BR/150/20/T

Oak Tree Trim- reduce canopy by 3m all round

Here's my response to the three questions you had, I hope they are adequate.

- 1) The proposed crown reduction will give a final height of 7.2 meters and spread of 6.3 meters from the trunk to the outer edge, after the crown reduction has taken place.
- 2) Please provide a sketch plan of the affected tree, including at least one road name.
- 3) Please clarify the trees location address - 752 ~~PAE~~ HAWTHORN ROAD

BACS DETAILS:

Sort Code: 09-00-01 ACC: 20138399
