NYEWOOD CE JUNIOR SCHOOL
PROPOSED EXTENSION AND INTERNAL ALTERATIONS

DESIGN AND ACCESS STATEMENT

1 Use

The project comprises a single storey extension to provide a new studio, with cloaks facilities, an accessible toilet / shower together with internal alterations to form a new library. Also included is a new hall store to replace the existing. The new facilities are designed for school use and to meet the Extended School's Agenda.

2 Area

Area of extension 93m2

3 Layout

As shown on plan.

4 Scale

The height from ground to top of flat roof perimeter trim is 3.5m.

5 Landscaping

Pedestrian access pathway will be extended to the new entrance doors. There will be some works to extend the infants playground and also security fencing, which is in hand.

6 Appearance

The external walls of the extension will be facing brick to match existing with panels of white weather boarding. The new windows will be white powder coated to match existing staff room windows.

7 Access

A ramped access is being provided at present to all external doors; there is a pupil in a wheelchair already at the school. The extension is on the ground floor and there is no change of level.
