The Economic Regeneration team have viewed this application and the comments are:-

We would strongly object to both the location and the design of this equipment. The current location is in an area that is likely to be redeveloped in line with the Council's Seafront Strategy. The aim of the Strategy is to make the seafront a more attractive place for visitors, this equipment will do nothing towards that aim.

We would suggest that a better location would be on the western side of the Pier, in a less visually obvious position.
