Dear Cian

A marquee provides negligible attenuation to the passage of sound. There is insufficient information in the application to satisfy that amplified sound (music/announcements etc.) will not be audible beyond the site boundary. Additional audience/customer noise associated with entertainments may also increase noise levels above the existing background at nearby noise sensitive premises. Please ask the applicant to provide an acoustic consultant's report quantifying the impact upon residential premises and detailing mitigation measures should be required to support the application.

Regards

Fiona
