Subject: Butlins - Marquee

Dear Mr Crowther,

Re: Planning Application for the Marquee at Butlins, Bognor Regis

This letter is in response to the objections relating to noise complaints for the Marquee. We have been working with Butlins to respond to the complaints received and I can confirm that the following mitigation measures have been undertaken.

Operational measures

Bass speakers have been removed.

Sound levels were being monitored on each performance.

Volume was adjusted as low as possible without compromising the performances.

Extent of permitted time

The extent of the permission can be limited to 8 weeks of operation in the summer months.

Location

In light of the sensitivities of this proposal we are looking into changing the location of the marquee in future years to an alternative location on the resort.

I have been talking to Fiona Fitzgerald from environment health and had positive initial feedback on our approach and will continue to have a dialogue with her about the future proposals.

Due to the change in location of the site we are aware that a new planning application would need to be made and in light of this we request that we withdraw the current application BR/170/14/PL. As I noted in our telephone conversation the marquee was taken down in early September.

I trust that this is all acceptable and we will follow this up with the new application when we have received further feedback from environmental health and settled on a suitable location.

Regards

Claire Elliott
