Hello

I received a email yesterday regarding asking for a sketch , I have attached one to this email but it's not very good Lol,

We want to get the tree felled as it's only 2m-3m from the house so it's way to close especially as it's around 12-14m in height it really is far to big so close to the house , It also causes a complete shadow over the right hand side of the house which has caused a large shaded moss area on the roof

We are more than happy to replant at the bottom of the garden , Not sure what would be suitable to you but a willow or a silver birch would be nice if that's ok, Our pet dog of 11 years past away so would be nice to scatter her ashes where the new tree will be planted ,

Many thanks
