

From top of plaque to floor 3m

From bottom of plaque to floor 2.630m -applicable to all 3 positions

The owner's preference would be to site the plaque on the pillar shown to the left of the picture, however, there are also 2 alternatives as shown. The height will ensure that it is not easily subject to graffiti or vandalism but will still be visible to the passer-by

Each pillar is of the same construction and the plaque can be fixed as indicated on the application form.
