Save the environment - think before you print.

Morning Maria,

We have now specified the 'Pod Point' solo smart charger as the provision for EV charging. Please find the attached revised site plan and the specification.

Kind regards,
Kit

Dear Mr Bone,

Please see below the comments of our Environmental Health officer with regards to discharge of condition 15 of an above application.

An 'Outdoor Socket with fused spur for EV Charging' is not sufficient as it can only be used occasionally for EV charging, and is not designed to withstand the necessary charging loads and should not be used long term. Environmental Health is not happy for the EV charging point condition to be discharged. The applicant needs to show that they will be installing specific EV home charging points.

Kind regards

Maria
