Dear Phil,

This application is well down my list and will only be dealt with once the older applications have been dealt with. Currently there are 38 applications ahead of this one

If the status of the building changes and is deemed to be say on the brink of collapse then you should approach Building Control.

Kind Regards

Subject: 2-4 Waterloo Square

Dear Simon

Please can we have an update and progress report on this application, especially as the building is in a dangerous condition and in a public space

We have seen the press reports and read the comments on the portal. A number of the consultee comments are very misleading and don't really appreciate the gravity of the situation with the building. They could mislead other public consultees
