Subject: 2-4 Waterloo Square

Simon

The above was raised on Tuesday at the BRTC Planning/Licensing Cttee on which I now sit.

You will be aware the decision was to change from 'No Objection' to 'Objection'

We were made aware of your correspondence with the applicant's advisers, I have read this. I was asked to consider contacting you in case I had further detail on the information I submitted as my Objection. I have to say that I do not, I am not at liberty to divulge the two companies, I have spoken to the main one, and their view is that they can add no more, as they have no access to the premises and thus can base their views simply on those 2 applicant reports. I quoted verbatim from both sources in my Objection.

I gather they may have undertaken developments locally so will be aware of 'local conditions'. I can only add that my reaction to the claim that has been made that the building has no similar analogue in town of that era neglects the old Fire Station in the High Street now used by The Lock Centre.

I note also the strong views submitted by Mr Burt and Cllr Stanley and concur totally with what they say.

I hope this assists in your work and in the decision to be made by the DCC.

Regards

Jan Cosgrove
Town Cllr

The view of one is that
