Dear Phil,

We have re-consulted our Structural Engineer and Bognor Regis Town Council on your document/images and are awaiting their comments to inform our recommendation. In particular, the Town Council have a meeting on the 9th October when they will discuss this matter further.

Kind Regards

Subject: 2-4 Waterloo Square Bognor Regis

Dear Simon

Please can you also let us have an update on progress as time is passing with no real forward momentum. Has Arun come to a decision yet as to the future of these buildings.

The Planning Portal gives these dates and we are currently passed the decision date of the 21 September. Please can you advise when a decision is likely to be given.

Received 23-07-18

Validated 27-07-18

Decision By 21-09-18

We would also like to know if the Town Council have considered the recent images, as we note that Cllr's Stanley and Burt have strong views on this building and its repair. It seems despite the evidence presented that others think the building is ok and just needs a general refurbishment. As Structural Engineers we would like to make the point that the buildings primary structure has been seriously compromised by water ingress and that it now presents a dangerous structure in a very public place.

Regards
