Dear Simon

Given the condition of the building we would strongly suggest that this date is revised as it is unacceptable to wait a further month given that all the comments are in and the condition of the building. This is not a normal situation and is potentially putting lives at risk with a dangerous structure in a very public place. I do not want any incidents on my watch that could risk lives un-necessarily.

No contractor will schedule in works till planning is approved and given that road and pavement closures may be required to work on the building waiting another month is totally unacceptable. This application is already overdue and given all the statements and documents you seriously want to park it for a month.

We would seriously urge you to reconsider the time frame.

Regards
