Dear Phil,

I have set time in my diary to write the report during week commencing 12th November.

Kind Regards

Importance: High

Dear Simon

It has been several weeks now and nothing appears to be happening with this application. I can only assume that Arun DC are happy to carry the risk to life on this structure as we don't seem to be able to get across to you how dangerous this building is. Building Control have requested further propping is

undertaken and this should be a message to Planning that you cannot just sit by and park the paperwork till it suits. Do nothing is putting lives at risk as this building will give no warnings when it decides it have had enough and the primary structure gives way, or indeed any part of the structure.

Please provide an update, so we can advise others associated to this structure

Regards

Phil Hamblin | Eng M.I.C.E. AMIStructE
