Hello Simon,

I believe I have made feelings on this application well known and I stand by them.

It does however surprise me that when the main reason for the demolition is being sited as safety (which I am still not convinced is required) we would even considered anything other than following the Environment Health recommendations to the letter.

The tone of the ongoing correspondence concerns me greatly, this is a massively important application and a decision cannot be taken lightly. This building is unique and cannot ever be replaced, I believe time has to be taken to ensure you are happy with your decision.

Please to not rush, continue to consult with everybody required to ensure the correct outcome is reached.

To summarise, personally I have not seen adequate evidence to support that demolition is required, far from it. However if that is the view of the Council surely safety must then be the top priority.

I am happy for this to be included on the portal.

Cllr Matt Stanley
Town and District Councillor
Marine Ward Bognor Regis.
