Hello Simon,

I was somewhat surprised to be referred to by Phil Hamblin on the planning portal, however as I have been I feel I should respond.

I am not a Structural Engineer or Building Consultant, however as you have I have spoken to a variety of Arun District Council Officers who have ensured me that the building is in no immediate danger of collapse.

I have re-read and studied all of the planning material submitted. Based on what I have read and the information I have been given by Arun District Council Officers I still stand by my original objection.

Whilst Mr Hamblin clearly doesn't agree with my conclusion I still have the right and the duty as Ward Councillor to express my informed opinion.

If Mr Hamblin still continues to take issue with my personal views you have my permission to pass on my contact details, he may prefer to discuss it with me personally rather than abruptly challenge them in his professional capacity on a public forum.

I am happy for this to be placed on the planning portal.

Regards,

Cllr Matt Stanley  
Town and District Councillor  
Marine Ward Bognor Regis
