Dear Mr Temple,

My wife and I are appalled at this proposal, which is clearly going to be very expensive to build and is totally unnecessary, given that the existing underground facilities could be simply be upgraded at considerable less expense, particularly in the current financial climate.

In addition, the proposed new construction would be an eyesore in the eyes of many. Put simply, the existing toilets being sited underground, are established, bother nobody and their simple upgrade is clearly the best option for residents and visitors to protect the open aspect of our seafront.

Your early acknowledgement would be appreciated.

Yours faithfully,

John Francis Flat3, Berkeley Court PO21 1LX
