Dear Sirs

Planning Application – Seafront Toilets

Having studied this matter very carefully and attended two meetings on the subject, I feel I must write to you and express and register my total objection and opposition to this planning application. I believe that it has been ill conceived and dealt with in an overbearing manner. The errors in the application are numerous, there has been no democratic consultation and no practical sense applied to the design and location.

Please, please start again and involve us !!

John Burnett
