The Bognor Regis Seafront-08-08-2017

Hi

Please include my thoughts into the discussion about the new toilets and forward to the ADC group who are involved

Please confirm that you have received this and let me know when the planning meeting is

Regards

Steve Goodheart

The building of the new toilets and foreshore office.

Comments on the proposed building and location. The design of the block should be more in keeping with the environment in which it's located. The location of it would be of greater use if built east of the ramp. An example of how a district authority (CDC) have incorporated a foreshore office/garage (boat/tractor) cafe/toilets and the use of a ramp. Location Brackersham Bay

Also adding to this development of use of the promenade going East a row of beach-huts would help this section of the prom be more useful for tourists and residents

This is a great opportunity to start the regeneration of the seafront

Please let's all work towards a better future

Regards

Steve Goodheart

Subject: FW: Seafront Toilets Bognor Regis

Please see email below from Steve Goodheart regarding the seafront toilets to be discussed at this evening's meeting.

In a further telephone call discussion with Steve a few minutes ago, he asked me to mention that some discussion with ADC must take place regarding these toilets.

Regards
Ruth
