Dear Mr Temple

As requested below, please confirm that our comments have been included in the responses to the application. Peter phoned this morning and left a message for you - reference 370396.

Many thanks

Jean and Peter Coles

Dear Mr Temple

Please regard this email as our comments on the revised application from ADC to build a new toilet block and Foreshore Office on Bognor Regis Promenade, opposite Esplanade Grande. ADC's online planning comment process is unnecessarily complex. Please include these comments in the formal process and ensure we receive an acknowledgement.

While the revised plans are a considerable improvement in design and orientation, we strongly object to the sign on the North facing side. The plans show TOILET signs at both ends and on the front/seaward side of the toilet block. A sign facing the road is unnecessary as well as offensive to residents in Esplanade Grande. There is also the danger of such a sign distracting drivers and encouraging cars, motor homes and coaches to try to stop and compete for limited parking. These toilets are for Promenade and beach users - not for passing traffic.
