Good afternoon Mrs Grieves,

I apologise for not getting back to you sooner. I have followed your link and completed what I hope is now the correct form.

I have also updated one of the drawings (BRC_005_04A), as we have now been able to get access to the roof and have more details of the guttering, and added detail drawings (Drawing 2, External Windows & Doorsets. 67-69 Upper Bognor Road) from our contractors for the design of the new joinery.

Due to miscommunication we have contractors on site, and they would like to be able to get these items approved so that we can make the building weather tight.

If you have any questions, or to make a site visit, please do not hesitate to contact me.
