

VELUX conservation roof windows

For traditional buildings

When planning dictates that a window of traditional external appearance is required, conservation roof windows should be considered. All of our conservation roof windows have the same technical features of a VELUX roof window but in a traditional black conservation style.

- Available in either centre pivot or top-hung.
- Black external profiles and glazing bar, in RAL colour 9005.
- Recessed installation for slate and tiled roofs.
- Top-hung roof windows listed below are suitable for emergency escape.
- Other sizes and glazing options available - contact us for further information.

Conservation packages include:

- roof windows with laminated glazing as standard for safety
- recessed fixings available for a more streamlined external appearance
- insulation collar and underfelt collar provided for a weather tight and energy efficient installation.

Conservation roof windows

External frame size (overall w x h) cm
