Subject: 65b Gravits Lane...land adj... BR/208/14/PL

Dear Mr Davis,

Have received the updated plans proposal for the above.

I'm totally beyond annoyed that this is still being considered. He is totally destroying a piece of land, just to place a property on, which he will walk away with a profit and for myself to have to live with, destroying our lives.

He has been beyond rude to us and the neighbourhood and why a whole neighbourhood is up against this build. My day to day life for lighting will be destroyed, in which I will have to use lighting at all times. I'm disgusted that the plans got agreed last time and we were told it was just a kitchen. I use my kitchen as im at home all day as im a housewife and its important I have light in it. I dont want to be put in the dark for having this house built. It would perhaps be nice if you came and viewed within my home, so you can see how this would effect us. He has now changed the plans taking land on 65b so that he can have enough garden to come to your terms. No one seems to care what myself or the neighbourhood say, or even the Bognor Regis Council saying that they object that the land is over crowded.

Also, would like to point out to yourself that he built a dormer that looks out of place within the street, without permission until he got picked up on it as neighbourhood complained and a this decision has now been made...refused. This new build has the same large dormer on it, being squashed between two houses. Beyond me that anyone can still think this is good to happen, when not yards up the road, (about 6 houses), that a large piece of land keeps getting refused for house builds, but a small piece can be approved. Its not as if there are not any new builds going on, just the street behind us that was the school has just had a whole new neighbourhood developed. I really do think we have enough houses in the area.

I see that a committee meeting will not be until December until we as a neighbourhood will all be coming in to visit and say our piece, but if us not writing to tell you that we're unhappy, are you going to listen to us on the day?.

I'm sorry to have to go on, but if you had to deal with this next door to you, which ive had to put up with this builder being abusive to myself and others in the neighbourhood since January this year, you too would be a nervous wreck over it. It has only made my illnesses worse as dealing with the stress. I would very much appreciate a visit to my home so that you can stand in my kitchen and see the full effect of what this build will do. Look forward to hearing from you.

Many thanks
Anita Fletcher
