Dear Amelia,

Deadwooding of trees, as requested, is exempt from requiring consent. The trees which grow close to the Amberley Drive property of Nos. 49 & 51 will become a direct nuisance and I recommend that the crowns of the Ash and Horse Chestnut be cut back to at least the fence boundary. It is recommended that the Horse Chestnut be cut back to previous pollard points and the Ash to healthy side branches in an attempt to retain a natural 'tree' shape rather than appearing harshly lopped back.

Regards

Ian
